Index Volume 6 January-December 1971

A

Abelmann, W. H.: The Cardiomyopathies 3: 101
Abortion, AMA policy on 1: 29
house officer on ethics of 11: 38
prostaglandins for 2: 9, 51
Acid-base balance, role of bone in 9: 131
Acidosis, lactic, idiopathic, management of 8: 76
Addiction, federal responsibility for GI's with 7: 39
methadone maintenance, centers closed 7: 32
AHA, Ameriplan, and national health insurance 3: 19
See also Blue Cross
AMA, annual meeting highlights 8: 156
and professional service review organizations 1: 27
Amantadine, for influenza 11: 75
Amniotic fluid, respiratory distress indicated by 11: 9, 45
Anaphylaxis, drug therapy 1: 79
slow-reacting substance of 1: 79
Anemia, iron-deficiency, in infants and children, management of 6: 9, 92
Anesthetics, pollution of OR by, and risk of fetal loss and cancer to personnel 3: 28, 12: 21
Antibody, auto-, in systemic lupus erythematosus 11: 109
Antigens, of influenza 8: 51
Aorta, rupture of, x-ray signs of 4: 83
Arthritis(ides), infectious etiology of 5: 142
Atherosclerosis, in coronary heart disease 9: 50
Aufranc, O. E., Turner, R. H., and Fremont-Smith, P.: Total Replacement of the Arthritic Hip 10: 66
Austen, K. F., *jt. au.*: Chemical Mediators of Immediate Hypersensitivity 1: 79
Autoimmunity, and immunologic unresponsiveness 5: 123, 135
Avery, M. E.: Prenatal Prediction of Respiratory Distress [Edit.] 11: 9

B

Bachmann, F.: The Paradoxes of Disseminated Intravascular Coagulation 9: 113
Bacteroides, sepsis from 1: 121
Barzel, U.S.: Parathyroid Hormone and the Buffering Function of Bone 9: 131
Bergofsky, E. H.: Clinical Investigation: Conception, Conduct, and Communication [Edit.] 3: 9
Bergström, S., Bygdeman, M., Samuelsson, B., and Wiqvist, N.: The Prostaglandins and Human Reproduction 2: 51
Biliary tract, stricture of, benign, surgery for 2: 62
Birch, H. G.: Functional Effects of Fetal Malnutrition 3: 134
Birtwell, W. C., *jt. au.*: Assisted Circulation: A Progress Report 4: 137
Blood, cells in, 3-dimensional photos of 4: 88
clotting, and immunology 4: 119
factor VIII, in hemophilia 2: 99
Blue Cross and AHA, relationship of 10: 19
Bone, buffering function and parathyroid hormone 9: 131
marrow, radioactive scanning of 7: 80
osteoporotic, metabolism of 8: 108
Braunwald, E.: Acute Myocardial Infarction: A Status Report [Edit.] 9: 9
Direct Coronary Revascularization . . . A Plea Not To Let the Genie Escape from the Bottle [Edit.] 5: 9
Breast, absent (Poland's syndrome), x-ray in diagnosis of 1: 135
Breast cancer, criteria of high risk in 7: 25
minimal, definition of 7: 20
present status of 7: 18
Bukantz, S. C.: 1971: Our Plans in Context [Edit.] 1: 11
Who Speaks for the House Staff? [Edit.] 5: 10
Bygdeman, M., *jt. au.*: The Prostaglandins and Human Reproduction 2: 51

C

Calcium, and osteoporosis 8: 110
role of, in heart failure 2: 83
Cancer, immune reactions and 5: 57
immune unresponsiveness and 5: 136
and viruses 5: 49
See also Breast cancer, Hodgkin's disease, Leukemia, Melanoma
CARDIAC FAILURE series. *See under authors:*
Abelmann, W. H. (cardiomypathies) 3: 101
Dodge, H. T. (hemodynamics) 1: 91
Fishman, A. P. (chronic cor pulmonale) 5: 101
Pool, P. E. (biochemical basis) 2: 83
Soroff, H. S. and Birtwell, W. C. (assisted circulation) 4: 137
Cardiomyopathies, factors in 3: 101
Carotid, reduced flow in, surgery for 4: 60
Central nervous system, diseases of, and hypothalamus 11: 129
and hypothalamus 9: 87
radiosotope scanning of 12: 57
Cerebral ischemia, transient, source of 4: 60
Chagas' disease, in myocardial disease, factors in 3: 109
Chemotherapy, for influenza 11: 75
of leukemia, acute lymphoid 12: 43
Clinic and Classroom
AMA Lukewarm on Moves To Narrow 'Generation Gap' 8: 156
Can Outpatient 'Surgicenter' Beat Blue Cross Veto? 2: 150
Disciplining the Incompetent Physician 6: 140
Educators Weigh Transit from Ivory Tower to Glass House 12: 142
Ethical Issues in Medicine: A House Officer's Views 11: 37
Has the Teaching Hospital Become Obsolete for Teaching? 9: 40
Medical Educators Debate How To Integrate the Internship 4: 40
New Rx for Health Care Delivery Assigns Central Role to Hospitals 9: 45
Peer Review: The Swamp Is Full of Alligators 7: 136
Restless House Officers Move Toward Community of Action 5: 20
A Twist of Dilemma 1: 140
Coagulation, disseminated intravascular, tests in 9: 116
Colectomy, one-stage, for acute diverticulitis 9: 66
Colitis, colectomy and ileostomy for 1: 68
transmural, management of 1: 65
Colomyotomy, for diverticular disease 9: 81
Colon, ischemia of, 12: 125
Complement, serum, in systemic lupus erythematosus 11: 109
Connective tissue disease, mixed 11: 117
Contraception, for teenagers 8: 168
prostaglandins for 2: 9, 51
Coronary artery surgery, saphenous vein bypass 5: 9, 65
Coronary care, 3 levels of 9: 30
Cysts, gas, colonic, x-ray diagnosis of 11: 143
Cytology laboratory, decertification of, process of 10: 29

SURGICAL-MEDICAL series. *See under authors:*
Aufranc, O. E., Turner R. H., and Fremont-Smith, P. (hip replacement) 10: 66
Effler, D. B. and Sheldon, W. C. (saphenous vein bypass for myocardial revascularization) 5: 65
Localio, S. A. and Lepore, M. J. (one-stage colectomy) 9: 66
McGovern, J. H. and Lewy, J. E. (reimplantation of ureters in children) 8: 64
Rankin, G. B. and Turnbull, R. B., Jr. (transmural colitis) 1: 64
Rob, C. G. and Joynt, R. J. (carotid endarterectomy) 4: 60
Swenson, O. and Gellis, S. S. (inguinal hernia in infants) 11: 61
Warren, K. W. and Whitcomb, F. F., Jr. (benign biliary tract stricture) 2: 62
Swenson, O. and Gellis, S. S.: Repair of Inguinal Hernia in Infants 11: 61
Syphilis, incidence increase of 6: 27

T

Tetanus, immunization for 7: 57
Thromboembolism, pulmonary, acute, urokinase study 3: 9
Thrombosis, mesenteric, venous 7: 70
Transplantation, and immunologic unresponsiveness 5: 121
liver, graft viability in 3: 47
Trichobezoar, x-ray diagnosis of 9: 146
Turnbull, R. B., Jr., *jt. au.*: Transmural Colitis: Medical and Surgical Management 1: 64
Turner, R. H., *jt. au.*: Total Replacement of the Arthritic Hip 10: 66

U-V

Ureters, of children, reimplantation of, indications and technique 8: 64
Urinary tract, infections in children 8: 64
recurrent infection of, source of 4: 49
Vaccination, smallpox, "selective" use of 11: 19
Vaccines, human cell culture for 12: 27
for influenza 10: 103
Virus, measles, and subacute sclerosing panencephalitis 3: 67
Viruses, action of, in oncogenesis 5: 49
in breast cancer 7: 28
and cardiomyopathies 3: 109
slow infection from 3: 64
types of influenza 8: 50, 9: 103
